ROLLER CONE DRILL BIT

311.1 MTR737 (AUL-LS73YGG)

Diameter 311.1 mm (12 1/4")

IADC 737

Product line Motor

Motor bits are designed for a wide range of drilling applications. Sealed bearings, optimum cutting structure and complex body protection provide excellent performance.

Specification

Bearing type Single seal Journal bearing
Seal Elastomer seal
Number of nozzles* 3
Thread, API Pin 6 5/8 Reg
Gross weight, kg 96,4

Application

Motor bit is applied for drilling of oil and gas wells in hard abrasive formation with water or mud circulation.

Drilling modes recommended

RPM 180-40
WOB, t 19-35

Design features

Side jet circulation.
Shirttail and leg leading edge hard facing.
Leg protection with TC compacts.
Conical inserts.
Double gauge of TCI.

Quality management system is certified to ISO 9001 and API Specification Q1

* Standard specification may be changed on customer request
For the purpose of performance improvement, minor changes of the bit design may be introduced without prior customer notification
