

4 1/2" STD 531 (N-CL53Y)

IADC 531

VOLGABURMASH

Drilling Application

Designed for drilling in medium abrasive formations.

Design Specifications

- | | |
|----------------------|---------------------|
| • Bearing type | Open roller bearing |
| • Seal type | none |
| • Circulation system | One central jet |
| • Pin size | API - 2 3/8 Reg. |
| • Weight | 4,5 kg |

Features

- Central jet.
- Shirttail and leg leading edge hardfacing..
- Conical inserts.
- The state-of-the-art computer bit assembly allows to increase the bit bearing durability.

Operating Parameters

- | | |
|-----------------|------------|
| • Weight-on-Bit | 3-9 T |
| • Rotary Speed | 300-40 RPM |
